

Product Specification

Greenseal EPDM Pond Liner

Greenseal EPDM Pond Liner is a rubber membrane for gardening- and other small ornamental ponds. The membrane is extremely flexible, easy to install and can be covered by soil, pavers or installed fully exposed. Regardless of temperature the membrane maintains its unique rubber properties as elasticity with elongation of at least 300%. Greenseal is an eco-friendly alternative a Greenseal is also chemically stable and does not contain any softeners or other chemicals harmful to the environment. You can be confident that fish and other animals as well as plants are unaffected by the membrane. The production is certified according to ISO 9001 and environmentally certified according to ISO 14001. With Greenseal you will have a problem-free garden pond for decades.
